

Christmas Fingerprint Coasters

Homemade Christmas gifts are the best! There is nothing like giving someone a personalized gift that has been made with love! These Christmas Fingerprint Coasters are a fun and meaningful gift for your kids to make for friends and family. It can be made at home or even at school! Be sure to download the Free Gift Tag Printables here!

1 Fingerprint Christmas Lights Coaster

Kids will start with a Ceramic Coaster. An adult would use a black permanent marker to draw a squiggly line on the coaster and add little squares on the line for where the child is going to put their fingerprint lights. You will also add the words "Merry Christmas" to the coaster with the black permanent marker or have the child put his or her name and date on it. Use a foam brush to paint the child's fingerprint a bright color and add that color light to the string. Repeat this step for more colors (red, orange, yellow, green, and blue). Once completely dry, use a foam brush to put thin coats of Mod Podge Acrylic Sealer over the top and sides of the coaster to seal. Cut four 1x1 inch squares from a piece of Self-Adhesive Foam Sheet and attach to the back four corners of the coaster so that the coaster doesn't scratch the furniture. Once completely dry, use tissue paper to wrap and place in a Small Kraft paper Gift Bag. Use Baker's Twine to attach the free printable gift tag.

2 Snowmen Fingerprint Coaster

Start by painting a DIY Ceramic Coaster with blue paint. Use a foam brush to paint some of the child's fingerprint white so they can push their fingers down to make 3 snowmen. Paint the bottom of the coaster white to look like snow and use a cotton swab dipped in white paint to make snowflakes. Once the paint is dry, use a permanent marker to draw on the hat, eyes, mouth, nose, buttons, arms, and write the words

"Merry Christmas." After dried, use a foam brush to apply thin coats of Mod Podge Acrylic Sealer over the top and sides of the coaster to seal. Cut four 1x1 inch squares from a piece of Self-Adhesive Foam Sheet and attach to the back four corners of the coaster so the coaster doesn't scratch furniture. Once completely dry, use tissue paper to wrap and place in a Small Kraft paper Gift Bag. Use Baker's Twine to attach the free printable gift tag.

3 Christmas Tree Fingerprint Coaster

To make this festive Christmas tree fingerprint coaster, use a foam paint brush to paint the child's fingerprint green and have them put it down multiple times on a DIY Ceramic Coaster to form a Christmas tree. Use brown paint on the child's finger to make the wood tree bottom. Once the paint is dry, have them use a yellow permanent marker to draw the star on top and dip a cotton swab in red paint to make the ornaments on the tree. Use

a black permanent marker to write the words "Merry Christmas" on the coaster. Once everything is completely dry use a foam paint brush to put a couple of thin coats of Mod Podge Acrylic Sealer over the top and sides of the coaster to seal it. Cut four 1x1 inch squares from a piece of Self-Adhesive Foam Sheet and attach them to the back four corners of the coaster so that the coaster doesn't scratch the furniture. Once the coaster is dry you can use tissue paper to wrap it and place it in a Small Kraft paper Gift Bag. Use Baker's Twine to attach the free printable gift tag.

4 Reindeer Fingerprint Coaster

Make this iconic reindeer fingerprint coaster by painting the child's fingerprint brown and have him put it down on the DIY Ceramic Coaster 3 times to make 3 reindeer heads. Once the paint is dry use black permanent marker to draw on the eyes, antlers, and write the words "Merry Christmas." Dip a cotton swab in red paint to make the reindeer nose. Once completely dry, use a foam brush to add thin coats of Mod Podge Acrylic Sealer over the top and sides of the coaster to seal it. Cut four 1x1 inch squares from a piece of Self-Adhesive Foam Sheet and attach to the back four corners of the coaster so that the coaster doesn't scratch the furniture. Once dry, you use tissue paper to wrap and place in a Small Kraft paper Gift Bag. Use Baker's Twine to attach the free printable gift tag.
